DETAILED ACTION

1. Claims 1-26 are in the application.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Englehart et al.

Englehart et al discloses a watercraft comprising a hull supporting a jet propulsion system; the jet propulsion system includes an impeller, a pump housing the impeller and a venturi (figure 3) coupled to the pump and having a flexible portion 100 that has a discharge opening, a movable member (fluid in duct 106) associated with the flexible portion and an actuator coupled to the movable member that selectively moves the movable member to alter the cross-sectional shape and area of the discharge opening, generally as claimed.

Allowable Subject Matter

4. Claims 4, 5, and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Claims 8-26 are allowed.
